Summary

This document includes system requirements and installation for SROD Version 8.1.0 or later.

Recommended System Requirements

The following requirements apply to SROD installations:

- 4 Core Intel® Xeon® E51603, 2.80 GHz equivalent or above
- 4 GB RAM or above
- 1 GB 3D video card or better
- Resolution of 1280 X 768 or higher (1600 X 1024 recommended), dpi small fonts for better visual effects. Using Windows "Scale and Layout" = 100%
- Microsoft .NET Framework 4.5.1 or later

Supported Operating Systems

- Windows Server 2008 Standard / Enterprise / Datacenter Edition (x86 / x64)
- Windows Server 2008 R2 Standard / Enterprise / Datacenter Edition (x64)
- Windows 7 Professional / Enterprise / Ultimate (x86 / x64)
- Windows 8
- Windows 10
- Windows 11
- Windows Server 2012
- Windows Server 2012 R2
- Windows Server 2012 R2
- Windows Server 2019

General Information

The downloadable install file contains a setup program for SROD version 8.9.2. Installation is a matter of determining whether the product resides on a standalone PC (Desktop) or shared on a network and uses the appropriate setup programs.

Desktop

1. [SROD Installation](#)
2. [License Activation or Renewal](#)

Network

SROD can also be installed on a network.

A network installation of SROD is accomplished in three steps:

1. Installation of the executables and data files to the server
2. Installation of a license file (one-time activation only) on the server
3. Finalization at each client workstation
 - a. Install SROD media, on the client workstation.
 - b. Configure SROD license sub-system to point to the shared license file.

A network license specifies the number of users that can use SROD simultaneously. The network license, guided by the customer's license agreement, monitors the usage of a licensed product. For example, if a customer uses a network license for 10 SROD users, the network license allows access to SROD by up to 10 concurrent users. The 11th user would be denied access to SROD until a license becomes available.

Desktop Installation

SROD Installation

1. Open an internet browser and navigate to **www.lufkauto.net**. Select the Customer Log In option.

Select the **Software and File Downloads** option and log in using your credentials. If you do not know the username and password, please send an email to **srod.licensing.support@lufkin.com** (recommended, to get the latest releases notifications). Alternatively, you may use the username "**srodcustomer**" and password "**lufkinsrod1**" to access the program as a guest.

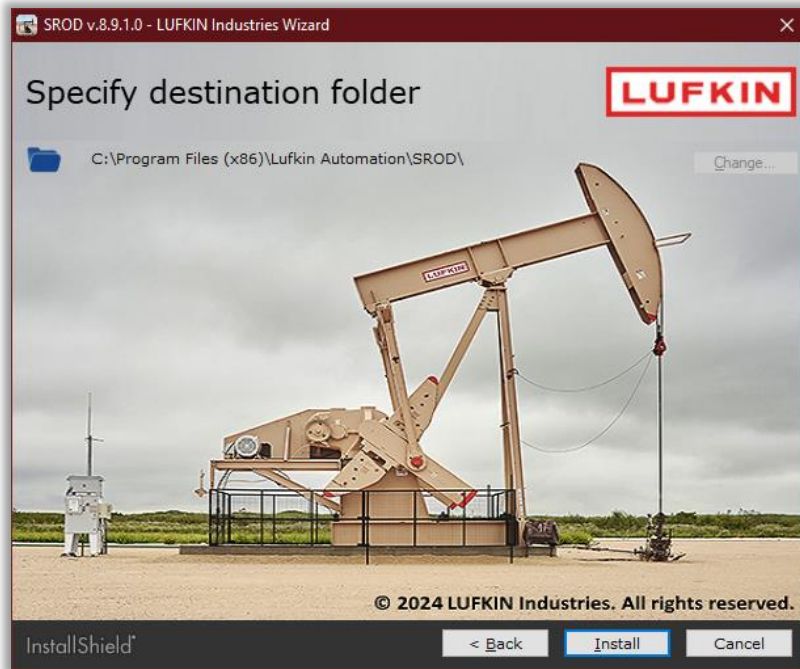

2. Select the **SROD** option from the left-hand side of the window.

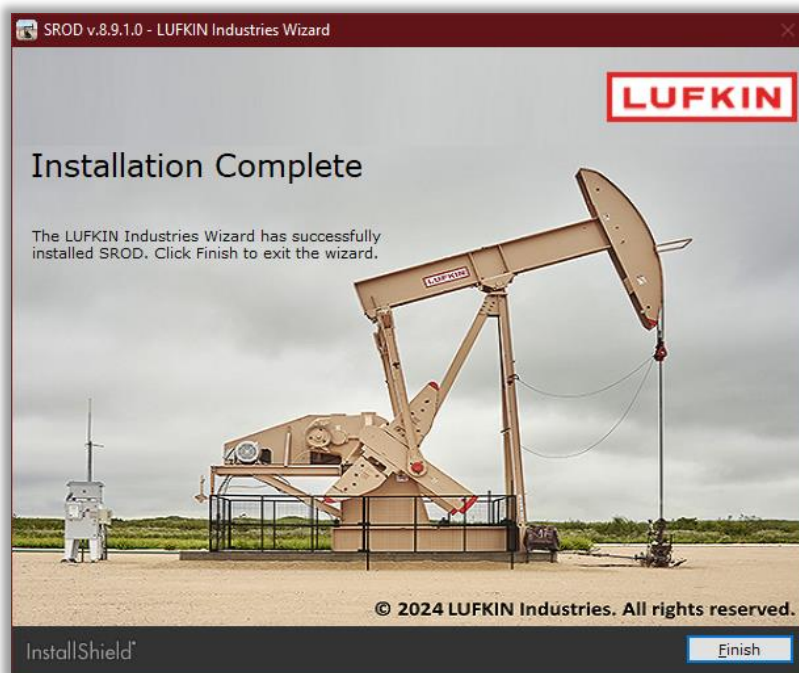

3. Under the **Download Category: Software : SROD Setup** heading, click the “Download Now” option as shown below and save the file (**Setup.exe**) to a location on your computer such as your desktop.
4. Once the **Setup.exe** file is downloaded, double-click the file to run it.
5. If prompted, click **Yes** to allow the program to install on your computer or laptop.
The Welcome to SROD Installation window is displayed.

- In the **Specify destination folder** window, you may change the default target folder.

- Click **Install** to continue installing SROD on your local computer.
- Click **Finish** to complete the installation.

Notes:

- If you try to run SROD and you receive a message stating that you need to install **.Net 4.5.1**, please ask your IT desktop support group for assistance.
- If SROD doesn't launch in a timely manner, make sure it is not being blocked by your antivirus software.

Next, you should activate your license.

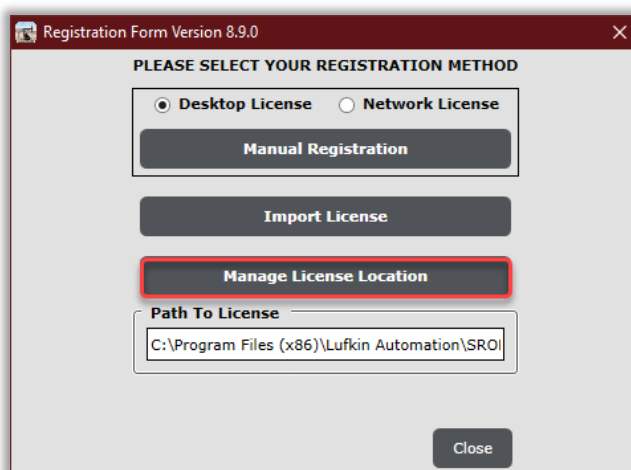

License Activation or Renewal

Note: You only need to perform the *License Activation and Renewal* procedure **once**.

1. Open SROD, click **Help**, and then select **Registration Details**.

2. Click **Manage License Location**

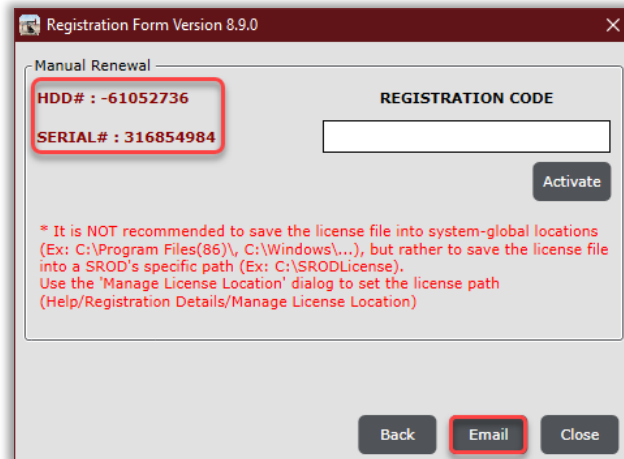

- In the **Path to License**, enter the path to where the license file will be stored.*
*It is **NOT** recommended to save the license file into system-global locations (Ex: C:\Program Files(86)\, C:\Windows\...), but rather to save the license file into a SROD's specific path (Ex: C:\SRODLicense).
- Click on **Save License Path**, Click **Back**.

The screenshot shows a dialog box titled "Registration Form Version 8.9.0" with a close button (X) in the top right corner. The main area is titled "Manage License Location" and contains a section labeled "Path To License". Inside this section, there is a text input field containing the path "C:\SRODLicense", a "Browse" button to its right, and a "Save License Path" button below the input field. At the bottom of the dialog, there are "Back" and "Close" buttons.

- Choose **Desktop License** and then click **Manual Registration**.

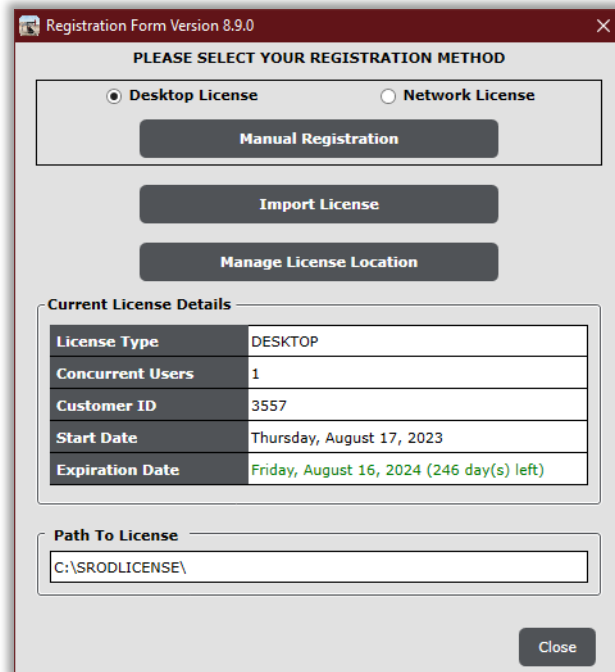

The screenshot shows a dialog box titled "Registration Form Version 8.9.0" with a close button (X) in the top right corner. The main area is titled "PLEASE SELECT YOUR REGISTRATION METHOD". It features two radio buttons: "Desktop License" (which is selected and highlighted with a red box) and "Network License". Below the radio buttons are three buttons: "Manual Registration" (highlighted with a red box), "Import License", and "Manage License Location". At the bottom, there is a "Path To License" section with a text input field containing "C:\SRODLicense\" and a "Close" button.

- In the **Registration Form** dialog box, click **Email** to generate an e-mail to srod.licensing.support@lufkin.com
This email contains specific information (**HDD# & Serial#:**) that is required to issue you a unique registration code.

- In Outlook, click **Send**. Once SROD Support reviews your request, they will send you an email with your unique registration code.
Note: If you are not using Outlook, send an e-mail to srod.licensing.support@lufkin.com with a screen shot of the **Registration Form** displaying **HDD# & Serial#:**
If you do not have Internet access, call **SROD Licensing Support at +1 (281) 495-1100**.
- Copy the registration code from the SROD Support email when you receive it, and then paste it into the **Registration Code** field.
- Click **Activate**.

10. SROD will show the desktop license details as follows:

Note: If the registration fails (verify the registration code and make sure not to have extra spaces). Contact SROD Licensing Team (srod.licensing.support@lufkin.com) if the renewal is unsuccessful.

Network Installation

SROD Installation

1. Open an internet browser and navigate to **www.lufkauto.net**. Select the Customer Log In option.

2. Select the **Software and File Downloads** option and log in using your credentials. If you do not know the username and password, please send an email to **srod.licensing.support@lufkin.com** (recommended, to get the latest releases notifications). Alternatively, you may use the username "**srodcustomer**" and password "**lufkinsrod1**" to access the program as a guest.

3. Select the **SROD** option from the left-hand side of the window.

4. Under the **Download Category: Software : SROD Setup** heading, click the “Download Now” option as shown below and save the file (**Setup.exe**) to a location on your computer such as your desktop.
5. Logon to the server where you want to share SROD.
6. Copy the **SROD Setup** file to that server, and then click the **Setup.exe** file.
The Network License must be installed before SROD can run properly on the workstations attached to your network.

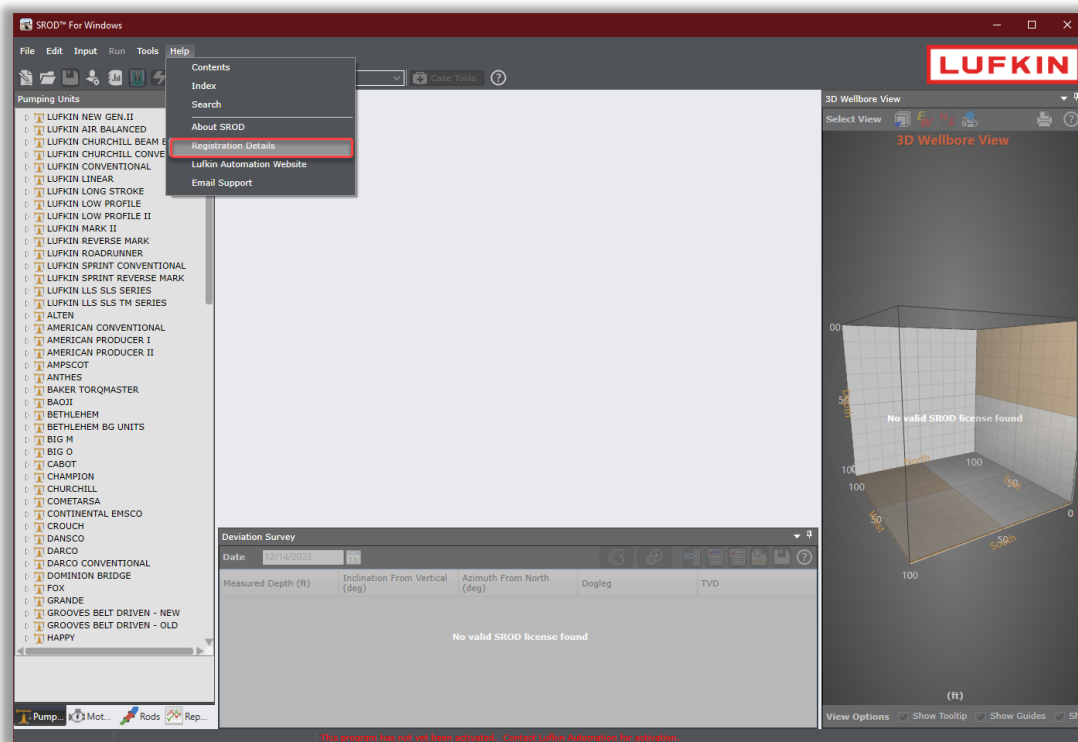

License Activation and Renewal

Notes:

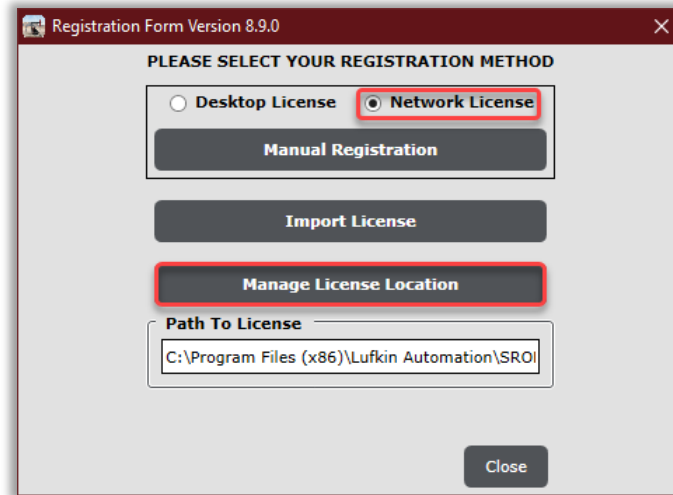

- You only need to perform the License Activation and Renewal procedure **once**.
- The license must be installed on a network computer that can be accessed by the workstations using SROD. This can be a file server or another workstation.
- SROD should be installed on both the server (to create the license file) as well as on the workstation(s).
- The following installation will be split onto two separate phases:
 - o [Server Installation](#)
 - o [Workstation Installation](#)

Server Installation

1. Open SROD, click **Help**, and then select **Registration Details**.

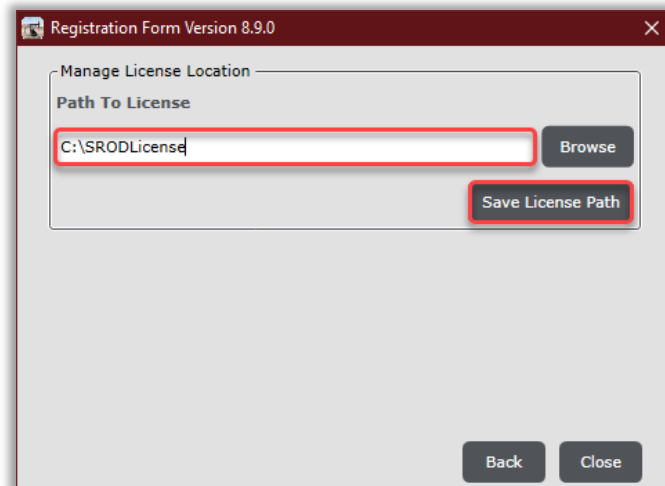

2. Choose **Network License** and then click **Manage License Location**

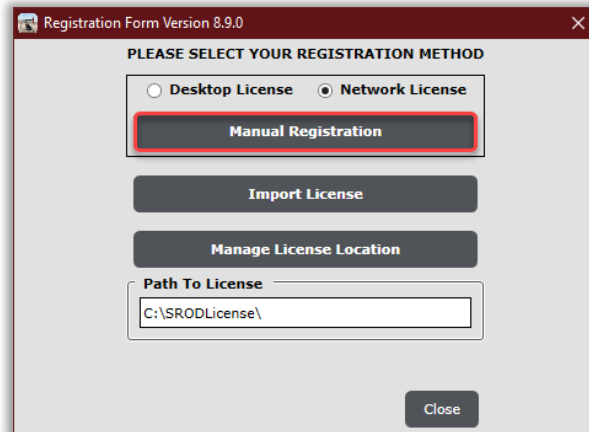

The screenshot shows a window titled "Registration Form Version 8.9.0". The main heading is "PLEASE SELECT YOUR REGISTRATION METHOD". There are two radio buttons: "Desktop License" and "Network License". The "Network License" option is selected and highlighted with a red box. Below the radio buttons are three buttons: "Manual Registration", "Import License", and "Manage License Location". The "Manage License Location" button is also highlighted with a red box. Below these buttons is a text field labeled "Path To License" containing the text "C:\Program Files (x86)\Lufkin Automation\SROD". At the bottom right is a "Close" button.

3. In the **Path to License**, enter the path to where the license file will be stored on the server.*
**It is NOT recommended to save the license file into system-global locations (Ex: C:\Program Files(86)\, C:\Windows\...), but rather to save the license file into a SROD's specific path (Ex: C:\SRODLICENSE).*
4. Click on **Save License Path**, Click **Back**.

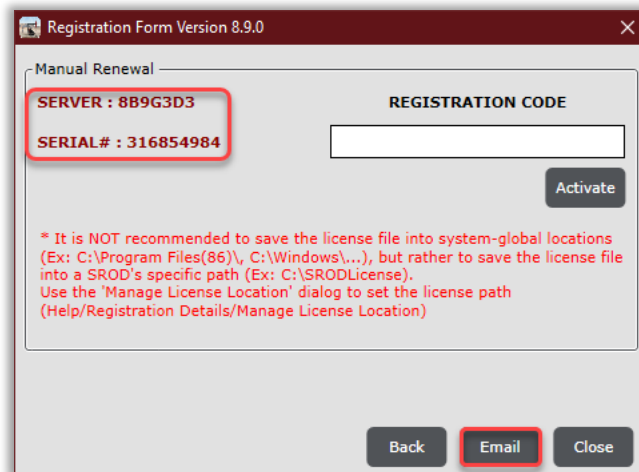

The screenshot shows a window titled "Registration Form Version 8.9.0" with a sub-window titled "Manage License Location". The "Path To License" text field contains "C:\SRODLICENSE" and is highlighted with a red box. To the right of the text field is a "Browse" button. Below the text field is a "Save License Path" button, also highlighted with a red box. At the bottom of the window are "Back" and "Close" buttons.

5. Click **Manual Registration**.

6. In the **Registration Form** dialog box, click **Email** to generate an e-mail to srod.licensing.support@lufkin.com. This email contains specific information (**Server Name & Serial#:**) that is required to issue you a unique registration code.

7. In Outlook, click **Send**. Once SROD Support reviews your request, they will send you an email with your unique registration code.

Note: If you are not using Outlook, send an e-mail to srod.licensing.support@lufkin.com with a screen shot of the *Registration Form* displaying **Server Name & Serial#:**

If you do not have Internet access, call **SROD Licensing Support** at **+1 (281) 495-1100**.

- Copy the registration code from the SROD Support email when you receive it, and then paste it into the **Registration Code** field.

Registration Form Version 8.9.0

Manual Renewal

SERVER : 8B9G3D3

SERIAL# : 316854984

REGISTRATION CODE

Activate

* It is NOT recommended to save the license file into system-global locations (Ex: C:\Program Files(86)\, C:\Windows\...), but rather to save the license file into a SROD's specific path (Ex: C:\SRODLicense). Use the 'Manage License Location' dialog to set the license path (Help/Registration Details/Manage License Location)

Back Email Close

- Click **Activate**.

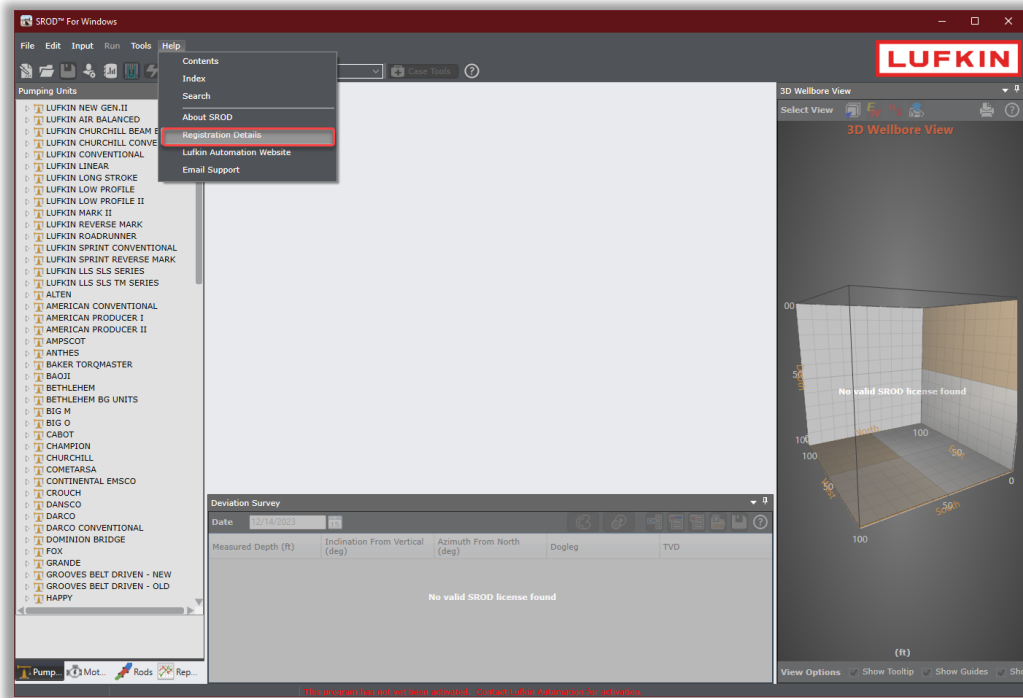

Note: If the registration fails, verify the registration code. Contact SROD Licensing Team (srod.licensing.support@lufkin.com) if the renewal is unsuccessful.

- Setup a network share to the directory holding the license file ([defined in Step 3](#)), where SROD's license files is installed. For example, **C:\SRODLicense**. Provide **Read/Write** permission on this shared directory for all users that will access SROD from different workstations. (Refer to your network administrator for help on how to create a network share)

Workstation Installation

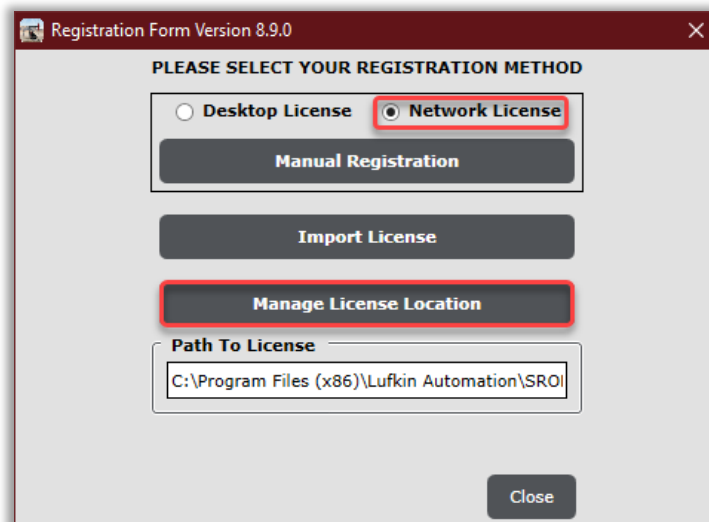

The following process should be performed on each SROD workstation.

1. Open SROD, click **Help**, and then select **Registration Details**.

The Registration Form dialog box is displayed.

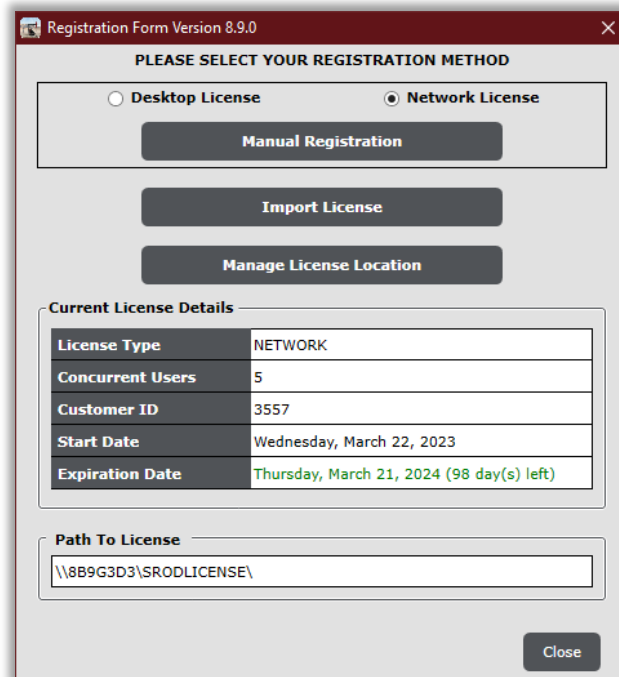

2. Select, **Network License** and then click **Manage License Location**

3. Enter the network shared folder (configured earlier), in the form of [\\YOURSERVERName\SRODLICENSE\](#). (Server's IP address is not supported)
4. Click **Save License Path**.

5. Click **Back**, SROD will show the network license details as follows.

SROD will also display the number of days left for your license to expire at the bottom status bar.

Importing License File

In some cases, licensing team may need to provide actual license file. In this case you can automatically import the file without needing to manually place it yourself.

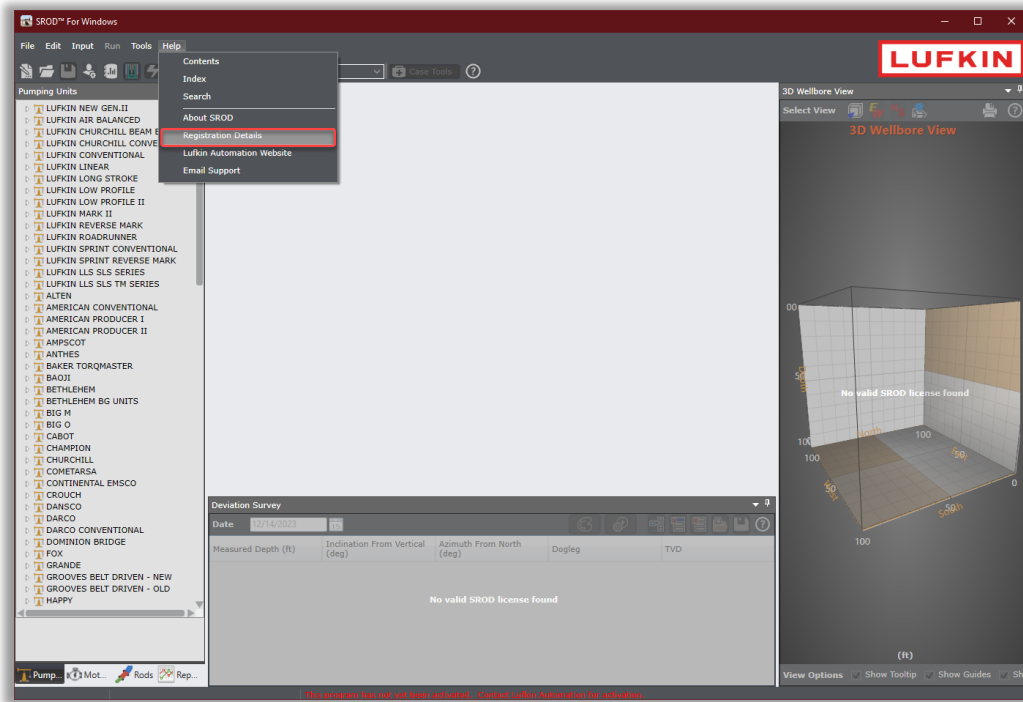

1. Within the email you received from the SROD Licensing Support representative, right-click the attachment titled **SRODLICENSE.win**, and click **Save As**.

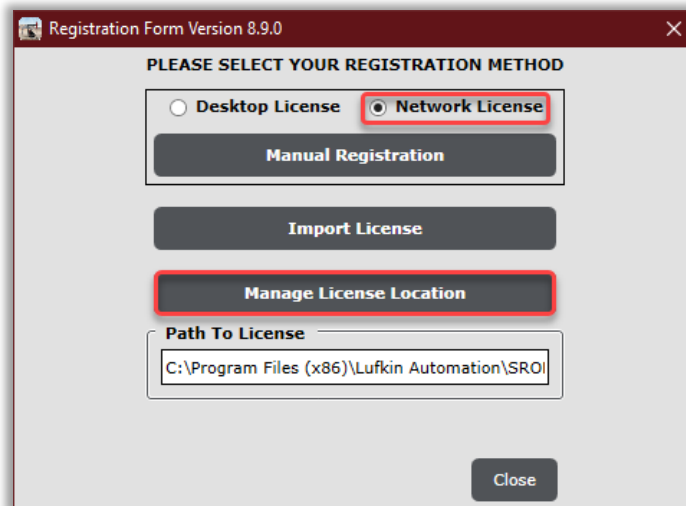

2. Save the **SRODLICENSE. Win** file to your desktop (or choose another location that you prefer). Remember this location for later reference.
3. Open SROD using one of the following methods:
 - Click the shortcut on your desktop or
 - Click **Start > LUFKIN Automation > SROD**.

- In SROD, click **Help**, and then select **Registration Details** as shown on the next page.

- Click **Manage License Location**

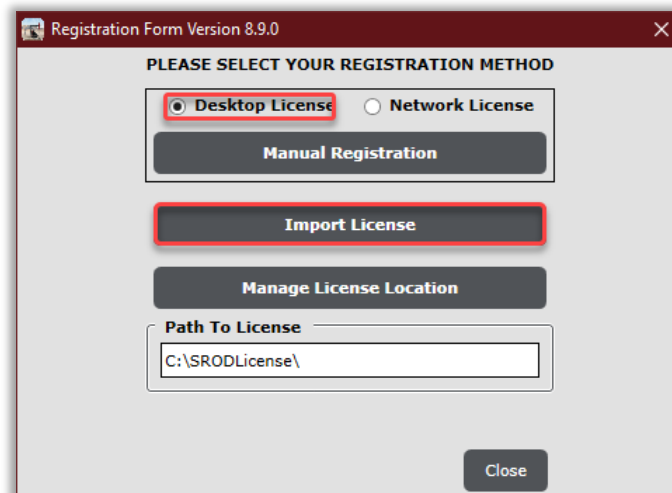

- In the **Path to License**, enter the path to where the license file will be stored.*
*It is NOT recommended to save the license file into system-global locations (Ex: C:\Program Files(86)\, C:\Windows\...), but rather to save the license file into a SROD's specific path (Ex: C:\SRODLICENSE

- Click on **Save License Path**, Click **Back**.

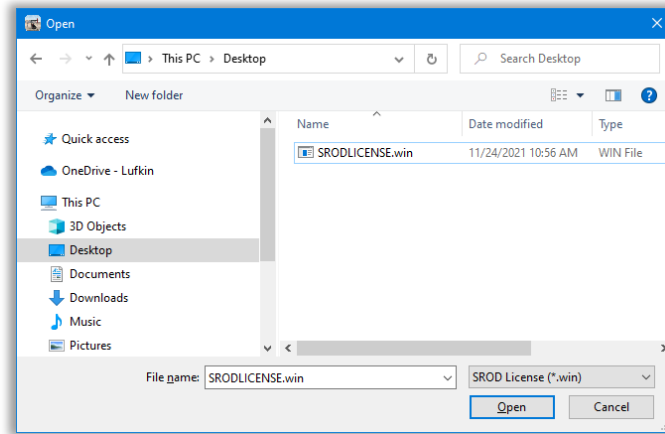

- Ensure that **Desktop License** or **Network License** is selected depending on which type of license you are trying to activate.
- Click **Import License**.

Note: Network installations use the **SRODLICENSE.win** file as available within the network location setup by your company's IT support representative. There are many unique installation configurations that can be performed when setting up a network license. Neither SROD Licensing Support nor SROD Technical Support will be aware of these unique installations. Please consult your company's IT support representative in these types of events.

10. On the following screen, select the location you chose in **Step 2** (for example, your desktop), select the **SRODLICENSE.win** file, and then click **Open** to import the file.

11. When the license registration process completes, the following message displays on your screen:

You are finished with this step.

Technical Support

Technical support is available using the following methods:

 **Website:** <http://www.lufkin.com>

 **Emails:**

SROD Technical Issues: sirod.technical.support@lufkin.com

SROD License Issues: sirod.licensing.support@lufkin.com

 **Address:** 811 Willow Oak Drive, Missouri City, TX 77489

 **Tel:** +1 (281) 495-1100
